COMMUNICATIONS CONSTRUCTION DIVISION

Communications Site Construction | Installations | Maintenance & Inspection

CHOOSE DAY WIRELESS SYSTEMS

Day Wireless Systems is the largest full service wireless integrator in the West. We design, implement, and support public safety and communications projects from beginning to end.

Our Communication Construction Division is made up of over 50 experienced and motivated employees specializing in Public Safety Site Construction, Carrier Site Construction, Civil Construction, and provide a variety of communications site maintenance and installation services. We are ready to take on your communication construction project throughout the West, including Oregon, Washington, California, Idaho, Wyoming, Utah, and Montana.

All tower climbers are Comtrain fall protection and rescue trained and certified, and NWSA (National Wireless Safety Alliance) certified. They are all certified in first aid/CPR and excel at safety awareness. Day Wireless Systems has a full-time safety specialist on staff.

WHAT OUR CUSTOMERS ARE SAYING

“ I cannot thank you enough for the rapid response and excellent commitment to meet our needs in bringing the Goat Mountain to Timberline link back online! Given the weather circumstances and the short handed status of the tower crew this effort was nothing less than outstanding! ...This is the true meaning of customer service and of going well beyond giving 100%. ”

- Ron Polluconi, Technical Services Supervisor
Washington County Consolidated Comm. Agency
