Streamlining Fleet Communications

[Zonar Forms™](#) allows companies in the dispatcher-to-driver environment to replace paper forms, share route dispatch assignments, gain efficiency and improve communication. Together with Zonar's [Ground Traffic Control®](#) and [Connect™ mobile tablet](#), the new Forms feature makes mobile messaging easier than ever before.

A Solution for Your Industry

Forms comes well-equipped with a library of message templates to choose from, designed to meet the needs of customers across a variety of industries such as pupil transportation, commercial trucking, transit, retail, municipality, construction and more.

Talk to Us About Customization Options

Zonar provides an option to work directly with your company to develop a customized Forms solution. Whether it's full custom form development or minor changes to existing templates—Zonar has you covered. Contact us to find the option right for you.

Key Features:

- Easy-to-use, on-screen displays for drivers and fleet dispatch operators.
- Electronic signature capture and recording.
- Saved message responses to assist with tracking compliance and performance.
- Message import and export ability to assist with managing driver replies.
- Driver notification alerts when new messages are received.
- Access to a library of commonly used message templates and forms.
- Text-to-speech with message auto-play for minimal driver distraction.
- Easy-to-navigate message folders including inbox, sent, draft, archive and deleted items.
- Flexible message display formats.
- Auto-populate message fields to display asset numbers, odometer, date, time and more.
- Share addresses as a hyperlink to navigation systems.
- API integration with existing systems
- 24/7/365 technical support from Zonar Customer Care.
